Furniture that you can feel

ILUSI FOR KIDS

SENSO COLLECTIONS

● Our Story

TIMELESSNESS. PASSION. DESIGN.

ILUSI was born out of fascination with interiors, passion for creation, striving for simplicity and originality and the desire to give happiness to its customers.

We believe that success begins with people and ends with the happiness of the user, who gives our furniture a new dimension.

We are passionate about products and interiors with a lasting character.

ILUSI is a modern, high-quality and original design that combines minimalism of form with sophisticated detail. We are proud to create our furniture, knowing that everyone will have their own long history.

● SENSO KIDS

The SENSO series was created in order to prove that furniture can enjoy a unique design strongly influencing the senses – therefore we base the design process on sensorics, providing the youngest users with stimuli and tactile sensations that they have never experienced before. This is an innovative approach in the furniture industry.

ILUSI SENSO

TEDDY COLLECTION

Teddy's collection is full of bears. Each is different, though being child-friendly. One big, one tiny, one concave, one convex. One thing is certain! With each of them, your little one can say hello by grabbing its nose, stroking its tummy. This three-dimensional, sensory front stimulates the senses, supporting the development of the youngest users of furniture.

ILUSI SENSO

HEDGEHOG COLLECTION

Stomp stomp stomp stomp! Here comes the hedgehog. A beautiful little hedgehog with a convex muzzle and rounded needles. You can count them, we promise they do not sting. These attracting, sensory fronts are all you want to touch. Getting to know shapes is pure pleasure, a big dose of development and fun. Why don't you invite these forest animals to your house?

HEDGEHOG Double Cabinet

HEDGEHOG Single Cabinet

HEDGEHOG Single Cabinet

● PIGGY COLLECTION

The piggy looks shy from the front. Will you invite her to your child's room? This pet arouses the curiosity of the youngest, and gives the children's rooms a joyful character. The collection is particularly appreciated by parents who like minimalist design.

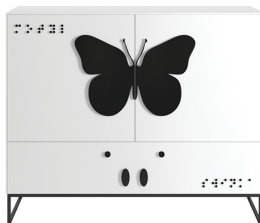

PIGGY Double Cabinet

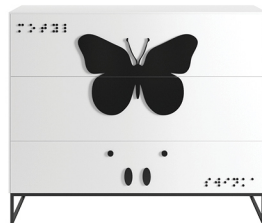

ILUSI SENSO

BUTTERFLY COLLECTION

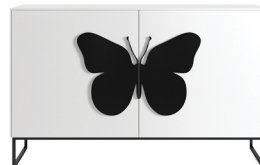

This time the butterfly won't fly away. Your little one can slowly learn its shape. Delicate wings, thin feelers – the elusive butterfly has been tamed. Sensory fronts encourage development, opening the child to new shapes, first words and letters.

BUTTERFLY Low-double Cabinet

BUTTERFLY Low-double multi Cabinet

● OWL COLLECTION

The round owl sits and peeps. It invites you to play! Learn about its shape, convexity and concavity, big eyes, a little cap and a hidden word. The sensory front will stimulate your child's development, because it's an owl – a wise head!

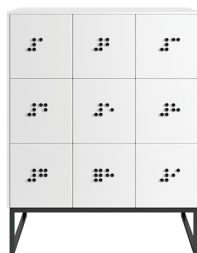

OWL Single Cabinet

● NUMBERS COLLECTION

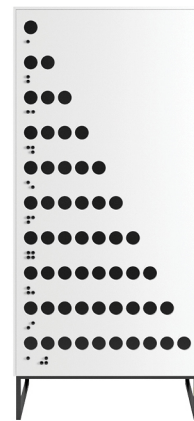

One, two, three – you count! All the elements that landed on the fronts of our furniture introduce children to the world of numbers. Through play, the child interacts with furniture, learns different arrangements, proportions, dependencies and learns to count by adding new elements. The details developed in detail arouse the curiosity of the youngest, successfully performing a decorative and educational function.
